

CTIS Event on 20 January 2023:

Readiness for Mandatory CTR use from 31 January 2023

20 January 2023, 10:00 – 13:00 CET

Background and objectives

Clinical Trials Information system (CTIS) was launched on 31 January 2022, starting the clock for the one-year transition time for all sponsors of clinical trials. During the first year of the transition period, clinical trial sponsors can choose whether to submit an initial clinical trial application in line with the Clinical Trials Directive or under the Clinical Trials Regulation, via CTIS. The last date for sponsors to submit under the Clinical Trials Directive is 30 January 2023.

Starting from 31 January 2023, the use of CTIS will be mandatory for all initial clinical trial applications in the EU. For trials authorised under the Clinical Trial Directive, sponsors can continue to submit substantial amendments following the principles of the Clinical Trial Directive until the end of the transition period on 30 January 2025. The European Medicines Agency (EMA) is organising this open event to provide:

- reflection on the implementation of the Clinical Trials Regulation;
- update on the current status of CTIS;
- outlook on 2023/2024 CTIS planning.

Questions will be asked via [Slido](#) in advance, between 6-13 January 2023.
